

LISA J. REED, MIES, PE, LEED AP BD+C
FOUNDING PRINCIPAL

Profile

Principal of Envision Lighting Design, Lake St. Louis, MO 2011-present:

As the Principal Lighting Designer, I personally work on all projects. I bring an understanding of lighting technology and psychology to the design team.

Most importantly, I am simply passionate about lighting and its impact on your project.

Previous Experience

Lighting Design and Technical Support for St. Louis Lighting Group, 2006-2011:

I assisted with the specification of over 200 projects while honing my presentation skills and improving my industry savvy for five years as a lighting manufacturer's representative.

Lighting Design and Education, 1998 - 2006:

I explored the nuance of lighting design under internationally known mentors. During this time, I also shared my lighting passion with interior design students as an instructor of lighting design and drafting at Long Beach City College for three semesters. I have been a guest lecturer at USC, UCLA, Cal State – LB, St. Louis Community College – Meramec, and Maryville University.

Lighting Designer for HOK, St. Louis, MO, 2005 – 2006;
Long Beach City College, Long Beach, CA, 2002 – 2004;
Senior Lighting Designer for Lighting Design Alliance, Long Beach, CA, 1998 – 2002.

Energy Management and Electrical Engineering, 1992 - 1998:

Seven years in electrical engineering provided a solid foundation in practical design and project management as well as a technical background that many lighting designers lack.

Professional Engineering Consultants, Inc., Wichita, KS, 1995 – 1998;
Peninsula Engineering, Inc, Orlando, FL, 1993 - 1995;
Intern Engineer for Energy Analysis and Diagnostic Center, KU, 1992 - 1993.
